

STEVEN CHEN

**Vice President of Strategic Planning and Product Development
Acorn Technology Corporation**

Steve Chen currently serves as the Vice President of Strategic Planning and Product and Development for Acorn Technology Corporation. Since joining Acorn Technology Corporation in 2006, he has been intensively involved with Information Technology Service Management product development, actively embracing Information Technology Infrastructure Library V3 service life cycle processes to align IT with clients' businesses. He performs variable analysis and complex financial planning as well as manages the capital investment budget, the strategic plan, and the annual operating budget. Prior to working at Acorn, Steve worked at UC Riverside's Bourns College of Engineering and Anderson Graduate School of Management, offering several unique lectures and seminars on topics including computer programming, database management and financial optimization. Steve also worked as a research assistant at UC Riverside and worked to promote the international scholarly exchange between several top research institutions in U.S. and in China.

Steve has advised Chinese companies on a variety of issues including doing business in the US, merging with US public shells, corporate re-structuring, due diligence, auditing, and complying with U.S. public market standards. Steve is also experienced at promoting U.S. companies into Chinese markets through direct foreign investments, joint-ventures, comanufacturing agreements, licensing agreements, and technology transfers.

Steve received a Masters of Business Administration with a concentration in Finance and Entrepreneurial Management, and a Masters of Science in Computer Science from the University of California, Riverside.
